What makes Amman one of the most multi-cultural cities in the world, is its ancient ruins where they are surrounded by modern towering buildings in a fantastic harmony while presenting the historical development. It has been noticed by many of our students that Jordan is unique from some parts of the Middle East. Amman, the capital of Jordan, has adopted many cultures while maintaining its own historical traditions. The amazing mix of people has formed a society which is accustomed to welcoming guests from diverse cultural, religious and societal backgrounds.

Study Abroad

Our center was inspired by this cultural reality not only welcomes students from abroad but also offers classes to local Jordanians who want to learn English. Students from both international and local backgrounds benefit greatly from each other especially from after-class discussions, these relationships deepen the understanding of other cultures in ways that research and study do not. Friendships are often made in our hallways and study areas which last far longer than our students stay in Amman.
